

## **Imagine Arcadia**

You are invited to an Open House Workshop where you can help design the improvements you want/need/dream/imagine for Arcadia

**FEBRUARY 16, 2017, 6:00 TO 7:30 PM**  
**Office of Sustainability - WMU Campus**  
**SE Corner of Howard & West Michigan**

Come when you can; stay for as long as you would like.

### **What will we do at the meeting?**

At this Workshop you will have an opportunity to:

- Share your thoughts about Arcadia by drawing on maps exactly where you would like to see improvements such as: sidewalks, crosswalks, traffic calming, parks, and commercial development.
- Explore how you would like to see Arcadia be better connected with other neighborhoods.
- Help set priorities for improvement projects.

### **I attended other Imagine Kalamazoo meeting(s) and gave feedback, do I need to come again?**

YES! At this meeting, we will be creating projects out of the “words” you gave us and diving into what they look like. We will be using visual examples, drawing on maps, discussing specific topics, and setting priorities.

### **What happens after this meeting?**

All the information from this workshop, and from other workshops held around the City, will be displayed at a City-wide meeting Downtown in March. Afterwards we will begin the process of drafting the master plan.

Bottom line: Now is your chance to shape the future of your neighborhood and City!

Don't waste this important opportunity  
Attend the Workshop  
Tell the City What You Want/Need/Dream/Imagine  
Help Shape Your Quality of Life and Your Future
